

CVrg Full Support™

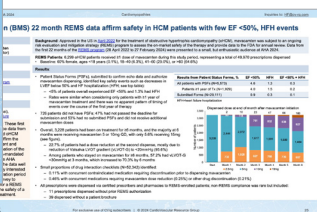

CVrg Full Support is an interrelated collection of elite resources, produced by experts who are dedicated year-round to their study areas. This value-add package delivers a unique combination of reports including competitive landscapes, medical congress coverage, CI surveillance, targeted analytics, and ad hoc advisory.

We deliver best-in-class insights & analytics for key stakeholders including competitive intelligence, medical affairs, new product planning, portfolio strategy, business development, and many others.

How We Support You

► CVrg Market Strategies™

Updated quarterly - comprehensive expert analyses with “go-to” competitive landscapes, product profiles, treatment algorithms, epidemiology, and more

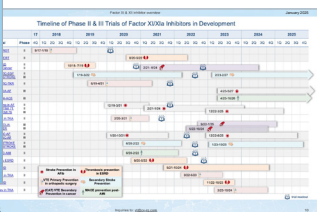

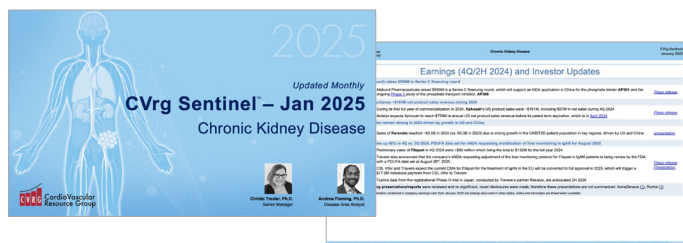

► CVrg Conference™

Insightful analysis of scientific data from medical congresses with implications that alert our clients about what is new, important, and why

► CVrg Sentinel™

Updated monthly - Actionable, strategically directed, monthly CI surveillance discerning relevant changes in each cardiovascular and metabolic therapy area

► CVrg Insights™

Primary research conducted when deeper analyses of treatment or development landscapes are necessary to fill gaps

► CVrg Advisory™ Ad hoc - Non-proprietary support within the scope of our medical conference, competitive landscape, surveillance, and other research

CVrg Market Research & CI

EXPERT, CONTENT-FOCUSED, BEST-IN-CLASS

CardioVascular Resource Group's deep understanding of clinical medicine, cumulative experience, and longevity are the foundation of our excellent service. CVrg's talented analysts are dedicated to specific areas of study and work alongside each other to provide broad and unparalleled expertise and deliver the most accurate, insightful, and robust market-planning reports available.

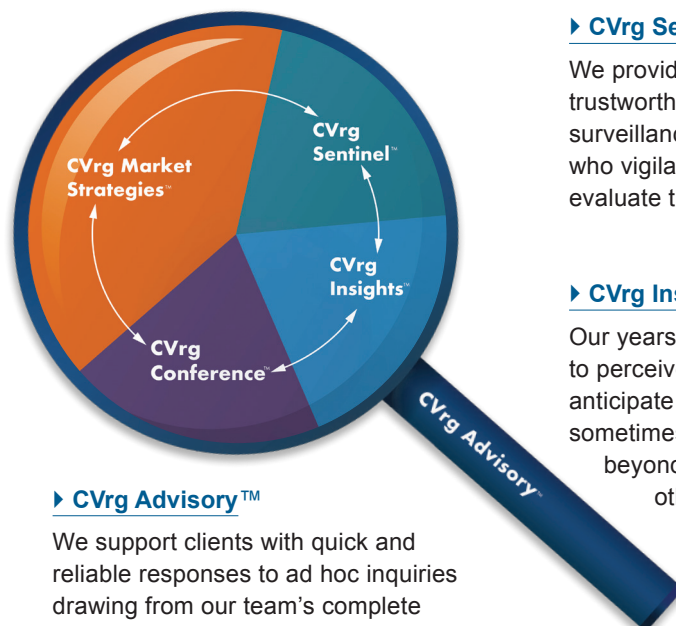

Why We Make A Difference

► CVrg Market Strategies™

We deliver elite and cutting-edge reports built product by product, and placed into the context of the landscape by experts adept at evaluating and updating quarterly scientific, clinical, and commercial content in their areas of specialization.

► CVrg Conference™

We produce best-in-class congress intelligence with unparalleled insights due to our analysts' incisive, trial-by-trial understanding of cardiovascular and metabolic therapies, and their deep understanding of the development landscape.

► CVrg Advisory™

We support clients with quick and reliable responses to ad hoc inquiries drawing from our team's complete understanding of CVM product markets and our access to extensive and relevant in-house analytics.

► CVrg Sentinel™

We provide comprehensive, trustworthy, and easily digestible surveillance from skilled analysts who vigilantly monitor and constantly evaluate their dedicated study areas.

► CVrg Insights™

Our years of experience allow us to perceive knowledge gaps and anticipate landscape changes which sometimes require deeper research beyond what is captured in our other reports.

“ I've worked in pharma med affairs for over 20 years & also for an agency that specialized in R&D/ pipeline updates and in all that time I've never seen reports that are anywhere near as good as yours in terms of content, presentation, relevance, thoroughness & timeliness. It's all superb work. ”
